

Hello

My name is Chayim Freed and I am a GP looking for ideally a full time (8 sessions) salaried role, but would be open to other arrangements and locum work in the Barnet area. I completed my VTS on the Cambridge scheme on the 4th of August this year (2020), and currently locum in Brent and with the out of hour providers in Barnet and Herts.

I also have a special interest in medical education, having been a clinical supervisor for Cambridge Clinical School of Medicine throughout GPVTS, and would hope to continue teaching and training both undergraduate and postgraduate trainees. I would be happy to help develop this as part of a practice development.

I would also be keen to develop an interest in reproductive and sexual health, should the opportunity become available.

Outside of the GP role, I have an interest in community prehospital emergency care and am part of the Hatzola organisation in Edgware. In a non-medical capacity, I trained as a financial trusts and foundations advisor working in this area for a short period of time.

Please e-mail me at chayimfreed@nhs.net or chayimf@thesaffrongroup.net or call 07930349622 if you have any vacancies or would like further information or my CV.

Kind regards

Dr. Chayim Freed

MBBS, MRCGP, AFHEA
