**12 August 2022**

Dear colleagues (all nurses in General Practice)

**Re: Polio vaccination programme**

I am writing to thank you for your ongoing dedication to supporting the public health of our London population and to acknowledge the additional pressure of the polio vaccination programme.

On behalf of the London regional NHSE team we appreciate all that you have done throughout the pandemic to ensure the good health of our population and managing long term conditions.

You will be aware that there are significant concerns about the potential impact of a polio outbreak on children in London and you are playing a really important part in managing this and mitigating the impact. We do not take for granted your continued professionalism and thank you for all your efforts.

Yours sincerely,

**Jane Clegg**  
Regional Chief Nurse  
London Region
